

DESERT SILICON, INC.

ENDURING EFFICIENCY THROUGH PROCESS, PROPERTIES, AND MATERIALS

POLISHED SILICON WAFER

WAFER SIZE	TYPE/ORIENTATION	RESISTIVITY/THICKNESS
8 INCH (2000MM)	ANY TYPE DOPANT ANY ORIENTATION	ANY RESISTIVITY ANY THICKNESS
FRONT SIDE	BACKSIDE	BRIGHT LIGHT INSPECTION
POLISHED	ANY	PASS

Description: Generic, inexpensive (\$11-\$13/wafer) silicon test wafers for development purposes, such as thin film deposition and PVD monitors; SOG development, recipe development, round robin calibration measurements, establish resistivity standards, and other materials development. Batches of 100 (4 cassettes) for lowest price.
